Wausaukee.com Memberships

WWW.wausaukee.com, the official Village web site, has evolved since its 1998 introduction into a site that promotes local businesses and draws traffic to our area. It incorporates an easy visual reference for things people are looking for within an area they wish to visit without having to move from the comfort of their personal computer.

Like the best of web sites, www.wausaukee.com offers information regarding the events that go on year round that attract tourists, a listing of volunteer organizations, churches, maps for directions, school information, emergency telephone numbers, weather, Village services available, and a number of newspaper and TV stations that service our community. To browse our web site we use familiar concepts, everyone knows how to use the yellow pages telephone directory or select a service from an icon. Our thumb nail guide is designed with 35 visual icons just like road signs representing the most used services. These visually familiar directories help you navigate our information because they have been used by everyone.

Four levels of membership are available and will draw traffic to your business by using the web to search for your services. The higher the level of your membership, the more exposures you will get throughout the site and the more information you will be able to give to that person looking for your service.

Memberships start as low as \$35 for the Yellow level. Touch the membership icon on any page for detailed information about the benefits of each level or call for more information. One year memberships start from the time you sign up and advertising of your business name will be available on the web 24 hrs a day, 7 days a week.

Log onto www.wausaukee.com to browse our new improved web site. Don't miss the opportunity to advertise your local business 24/7 on the official Wausaukee area web.
